Mr. Sean Conley
Regency Electric
4500 Salisbury Rd., Ste 300
Jacksonville, FL 3216

**Reference: UF Health Proton Therapy Expansion
Regency Electric**

It is my pleasure to recommend Regency Electric for consideration of an excellence in construction award for the UF Health Proton Therapy Expansion project. This was an extremely complex electrical project that involved a high level of coordination between trades to ensure that the power and infrastructure needs of the proton therapy equipment vendor were met. Regency's project management and site supervision team was highly skilled, organized, and professional. They met every challenge head on with a pro-active approach to working together and providing solutions. They were the true definition of Teamwork, and were instrumental in the success of this project being delivered on time and under budget.

We look forward to working with Regency Electric again.

Sincerely,
