Subject: RE: Lindsay Auditorium Award

Matt,

As a Construction Manager for First Baptist Church of Jacksonville, I am proud to say that Regency Electric was on our team to complete the renovations to the Ruth Lindsay Auditorium. Regency Electric's performance was 2nd to none which is no different than any other project they have performed for PMC. This project required up front coordination between AV/Architect/Owner to get the project in budget so it could move forward. It was the front end effort of Regency Electric that found ways to achieve the budget without affecting the performance of the building. Throughout the project milestones, Regency helped find ways to aid schedule and performance. From start to finish, Regency Electric was a team player in completing this renovation.

Thanks,

Heath McCall, LEED AP
Project Manager
